GILBERT L. SMITH & SONS NURSERY
R.D.2, MILLERTON, N. Y.
FALL 1958 - SPRING 1959.

We have some excellent walnut trees to offer for this fall and next spring. Grafted trees of black walnut, heartnut, Persian walnut.

The number of trees is limited but the trees are excellent. They are on three year black walnut stocks. A very few of the trees are of the smaller sizes (under 2 ft and 2-3 ft) but most of them are 3 - 4 ft. and 4 - 5 ft. with a few over 5 ft.

All orders will be filled in the order in which we receive them. As many varieties are in short supply, early orders will stand the best chance of being filled.

PERSIAN WALNUTS.

Sold out → METCALFE - A Crath Carpathian. 1st Prize winner in 1950-51 Northern Nut Growers Assn. Contest.
Nut medium to large size, very best quality.

MCKINSTER - A Crath Carpathian. 1st Prize winner in 1949-50 N. N. G. A. Contest. 3rd Prize winner in 1950-51 N. N. G. A. Contest.
Nut medium to large in size, very best quality.

Sold out → HANSEN - Not a Carpathian but very hardy. 2nd Prize winner in both the 1949-50 and 1950-51 Contests.
Nut medium to large in size, very best quality.

ORPH - A Crath Carpathian. 6th Prize in 1950-51 N. N. G. A. Contest. We do not know the size of the nut but quality would have to be of the very best to place in the contest.

MORRIS - A Crath Carpathian. 4th Prize in the 1949-50 N. N. G. A. Contest. 9th Prize in the 1950-51 N. N. G. A. Contest.
Nut large size, quality very good. This is our S-66.

DEMING - A Crath Carpathian. 5th Prize in 1949-50 N. N. G. A. Contest. No nuts to enter in the 1950-51 Contest.
Nut large size, quality very good. This is our S-XD.

LITTLEPAGE - A Crath Carpathian. Honorable Mention in the 1949-50 N. N. G. A. Contest.
Nut large size, quality good but not best. Heavy bearer.

CLARENCE - A Crath Carpathian. A good late pollinizer.
Nut large size, quality very good. Good bearer.

Following are our numbered varieties which we have not named yet.
All are Crath Carpathians.

S-5 - Nut very large size, quality very good.

S-6 - Nut large size, quality very good. Shells do not seal well. So nuts will not stand rough handling. For this reason, it is not a good commercial variety for marketing in the shell, but for marketing as shelled kernels or for home use, it is an excellent variety. Kernels large and bright.

S-7 & S-12 - These two varieties are so nearly alike that we describe them together.

Nut very large, rather rough, quality very good. Shed pollen early but need a late pollinizer.

S-17 - Nut small to medium but fills very well, quality very good. Late in leafing-out in the spring so may escape some late spring frosts.

S-22 - Nut large but varies a good deal in size, quality good. A very good pollinizer and is self pollinizing.

S-24 - Nut large, quality good. A late pollinizer.

S-25 - Nut large, quality very good. A good late pollinizer.

S-26 - Nut small to medium size, quality very good.

S-29 - Nut large, quality very good.

S-31 - Nut small to medium but fills very well, quality very good.

S-32 - Nut medium in size, quality very good.
Received Honorable Mention in the 1949-50 N. N. G. A. Contest.

S-33 - Nut medium to large, quality very good. Very attractive. Sheds pollen early but needs late pollinizer.

S-35 - Nut medium to large, quality very good.

S-38 - Nut very large, quality very good. Outstanding.

S-41 - Nut medium to large, quality good.

S-45 - Nut small to medium but fills very well, quality very good. Late in leafing-out in spring so may escape some late spring frosts.

S-46 - Nut large, quality very good.

S-48 - Nut large, quality very good.

S-57 - Nut small to medium but fills very well, quality very good. Late in leafing-out in spring so may escape some late spring frosts. Late in blooming both pistillate and staminate.

We have a fair supply of Persian walnut seedlings, 2 yrs old. All grown from some of our best varieties. Price of each is \$1.50.

Following is a pollination chart of Persian walnuts, as near up to date as we can make it. It is divided into two halves, the upper half being the staminate blossoming time and the lower half being the pistillate blossoming time. There are four columns graduated from early on the left to late on the right. Varieties listed in a column above the center line, will pollinize the varieties listed in the same column, below the line.

STAMINATE

HEARTNUTS

Flavor of heartnuts resembles the flavor of butternuts. Crack much better.

FODERMAIER - Nut large, cracks perfectly, quality very good. Tree not as hardy as Wright.

GELLATLY - Nut medium size, cracks perfectly, quality very good.

MARVEL - Result of crossing Fodermaier x Wright. Nut medium size, cracks perfectly, quality very good.

RIVAL - A sister variety of Marvel. Nut medium size, cracks perfectly when well dried, quality very good.

WRIGHT - Nut medium to large, cracks perfectly, quality very good. Tree most hardy of any of our heartnuts. But all varieties will withstand -25° F. All have withstood -30° here.

Wild butternuts will pollinize heartnuts, so in any region where butternuts grow in the woodlands, you do not need to worry about a pollinizer for heartnuts. However Wright will pollinize Fodermaier, Marvel and Rival and will be pollinized by any of these. Not sure about Gellatly.

BLACK WALNUTS

BENTON - Nut small to medium size, cracks well, excellent quality. 2nd Prize in New York - New England Contest of 1934.

ELMER MYERS - Nut small, shell thin, cracks fairly well, quality good.

KRAUSE - Nut large, cracks well, quality very good.

LEARN - Nut large, cracks well, quality very good.

MINTLE - Nut large, cracks well, quality very good.

OHIO - Nut large, cracks well, quality very good. Filled well here in a season when most varieties failed to.

PINECREST - Early, nut large, cracks well, quality very good.

SNYDER - Early, nut large, cracks well, quality very good. 1st Prize in New York - New England Contest of 1934. Holds foliage well in the fall.

SPARROW - Early, nut medium size, cracks well, quality excellent. Our favorite variety. Holds foliage well in the fall.

Sold out → STAMBAUGH - Late, nut large, cracks very well, quality excellent. 1st Prize in N. N. G. A. Contest 1926. Very subject, here, to walnut anthracnose or leaf-spot. This causes the leaves to drop quite early in the fall.

THOMAS - Nut large, cracks well, quality good. Tree not as hardy as the other varieties listed here.

TODD - Nut very large, cracks well, quality good.

TROUP - Nut large, cracks well, quality very good.

WANDA - Earliest of the varieties listed, tree hardy so is best for far northern locations. Nut small, cracks well, quality very good.

HICKORY

Our supply of trees is very limited due to shortage of stocks to graft onto.

BAUER - Shagbark. Nut large, cracks well, quality very good.

Sold out → REHGER - Shellbark. Nut small for a shellbark, about the size of a large shagbark. Cracks well quality very good.

BRIDGEWATER - SHAGBARK. Nut very large for a shagbark, cracks well, quality very good.

GLOVER - Shagbark. Nut large, cracks well, quality excellent. One of the very best of the shagbarks.

NEILSON - Shagbark. Nut large, cracks well, quality very good.

WILCOX - Shagbark. Nut large, cracks well, quality excellent. One of the very best of the shagbarks.

CHINESE CHESTNUTS

We do not have any grafted trees of Chinese Chestnuts, but we have a good supply of seedling trees of a very good strain that is very resistant to blight and very hardy to cold winters. It produces nuts of good size and quality, very much like our American chestnuts.

Prices of trees -	1 to 9 trees -	10 to 49 trees -	Over 50 trees.
3 to 4 ft trees	\$1.00 each	90¢ each	80¢ each
4 to 5 ft trees	1.50 "	1.25 "	1.10 "
5 to 6 ft trees	2.00 "	1.50 "	1.25 "

PRICES OF GRAFTED TREES.

PERSIAN WALNUT AND HEARTNUT TREES.

Under 2 ft trees	\$4.00 each
2 to 3 ft trees	4.50 "
3 to 4 ft trees	5.00 "
4 to 5 ft trees	5.50 "
Over 5 ft trees	6.00 "

BLACK WALNUT TREES.

Under 2 ft trees	\$2.00 each
2 to 3 ft trees	2.50 "
3 to 4 ft trees	3.00 "
4 to 5 ft trees	3.50 "
Over 5 ft trees	4.00 "

HICKORY TREES.

All grafted trees \$4.00 each.

All prices F. O. B. Millerton, N. Y. Bundles that comply with the Parcels Post Regulations, will be sent by Parcels Post and we will bill for the postage or will deduct the postage from any refund due.

CRATH CARPATHIAN SEED NUTS.

We have a fair supply of seed nuts of the Crath Carpathian Strain of Persian walnuts, this season. These include nuts of several of our better varieties.

We send instructions for care and planting of the nuts, with each shipment.

Price of these nuts is \$1.00 per dozen. Postpaid.

GRAFTING WOOD

We can supply grafting wood of most of the varieties of nut trees we list.

Price of Persian walnut and heartnut wood is 25¢ per foot.

Price of black walnut and hickory wood is 20¢ per foot.

One foot of wood will make three or four scions.
